

YOU ARE INVITED

HDSA LOS ANGELES POP UP DINNER SERIES

PLANT BASED EXPERIENCE

Saturday, October 19th | 7:00pm - 10:00pm

West LA, California

\$125 suggested donation per person

Enjoy a plant based tasting menu in a vibrant garden setting under the stars with live music and biodynamic wine. There will also be an opportunity to bid on exciting silent auction items including vacation packages, wine, sports memorabilia, and more!

Due to the exclusive nature of this dining experience, there is limited seating available. Please reserve your spot by October 12th, to ensure that you don't miss out.

100% of the proceeds will be donated to the Huntington's Disease Society of America, Los Angeles Chapter

Tickets: <https://app.donorview.com/pGNb>

HDSA is the world's premiere non-profit organization dedicated to improving the lives of everyone affected by Huntington's disease.

PLANT BASED EXPERIENCE

PLANT BASED EXPERIENCE

ABOUT THE CHEF

Kaitlyn Misheff is a plant focused, celebrity private chef from Los Angeles, CA. With a passion for good food, elevated flavors, and healthy living, Kaitlyn provides her clients with a unique culinary experience.

Kaitlyn hosts secret suppers all over the world in locations that match her creations themselves, edgy and elegant. Kaitlyn's goal is to inspire people and let them taste the possibilities of vegetables.

You may recognize Kaitlyn from the Shine a Light on HD gala.

HUNTINGTON'S DISEASE SOCIETY OF AMERICA

The Huntington's Disease Society of America (HDSA) is the premier nonprofit organization dedicated to improving the lives of everyone affected by Huntington's disease. From community services and education to advocacy and research, HDSA is the world's leader in providing help for today, hope for tomorrow for people with Huntington's disease and their families. In the battle against Huntington's disease no one fights alone. At HDSA — family is everything!

WHAT IS HUNTINGTON'S DISEASE?

Huntington's disease (HD) is a fatal genetic disorder that causes the progressive breakdown of nerve cells in the brain. It deteriorates a person's physical and mental abilities usually during their prime working years and has no cure. HD is known as the quintessential family disease because every child of a parent with HD has a 50/50 chance of inheriting the faulty gene. Today, there are approximately 30,000 symptomatic Americans and more than 200,000 at-risk of inheriting the disease. The symptoms of HD are described as having ALS, Parkinson's and Alzheimer's – simultaneously. Symptoms usually appear between the ages of 30 to 50, and worsen over a 10 to 25-year period. Everyone has the gene that causes HD, but only those that inherit the expansion of the gene will develop HD and perhaps pass it on to each of their children. Every person who inherits the expanded HD gene will eventually develop the disease. Over time, HD affects the individual's ability to reason, walk and speak.

We will send dinner details, including address, and special details on Thursday morning September 5th.

Unfortunately, we are unable to accommodate cancellations or refunds due to the nature of our fresh-sourced menu. In the unfortunate event that you are unable to attend after all, you might choose to gift your seating reservation and still accept the tax-deductible donation.

HDSA is the world's premiere non-profit organization dedicated to improving the lives of everyone affected by Huntington's disease.
